**Orem Corridor Preservation Measure of Support** - Jim Price, MAG
Orem City has been requested to purchase a property on 1600 North by the owner needing to move soon into a home with improved wheelchair access. This purchase can be classified as a medical hardship mitigation and because this is a willing seller, reduces the future costs associated with forced relocation.

Because Orem City is actively seeking to widen 1600 N. It is anticipated that this property will need to be purchased for that future project.

The action today will be a non-binding vote on whether TAC is supportive of this request.

**The MPO Technical Advisory Committee wishes to convey to Orem City its support for pursuing Corridor Preservation Funds in this matter with a positive though non-binding vote.**
