### Agenda Item # 3

**Date:**
November 6, 2019

**Subject:**
Legislative Updates

**Prepared By:**
Peterson Consulting Group (PCG)

**Background:**

a. Tax Restructuring Update: PCG been attending all the Tax Restructuring meetings since early this summer and will brief the committee on the potential changes to sales tax and a possible redistribution that would have an effect on member cities.

b. Transportation Bond: PCG heard rumblings that if the tax restructuring issue can be addressed in a special session in December, the transportation bond might be an area of emphasis for the general session.

c. Tax on Water: PCG has been working to fend off the tax on water throughout the year but an update to the committee might be beneficial.

d. Secondary Water Metering: The Utah Water Task Force has been tasked to study this issue and how it affects cities and counties. It would be valuable to hear how our member cities would receive this mandate.

e. TIF and TTIF Prioritization Changes: Over the course of the last 6 months, UDOT has been going through a substantial overhaul of their prioritization matrix. They have made two presentations to the Standing Transportation Committee over the last two months and we need to inform the committee of those changes.

**Staff Recommendation:**

**Suggested Motion:**
Information only
